

Treatmate Healthcare Pvt. Ltd.

Innovating Healthcare. Saving Lives. Creating Sustainable Community Impact.

1. Corporate Overview

Treatmate Healthcare Pvt. Ltd. is an integrated healthcare solutions provider established to make quality medical care structured, reliable, and accessible across clinical tiers. Our core operations span emergency medical services, preventive health screenings, home-based clinical care, rehabilitation, and healthcare technology integration.

Co-founded and led by medical professionals, the company combines frontline clinical expertise with practical healthcare administration to serve individuals, corporate partners, and public health institutions. Rather than focusing solely on episodic treatment, our operational model prioritizes preventive care, continuity of treatment, and scalable healthcare delivery to drive measurable community health outcomes.

2. Vision & Mission

Vision To be a trusted healthcare partner delivering accessible, reliable, and technology-driven medical solutions that strengthen community health resilience.	Mission Highlights • Expand medical access via mobile frameworks. • Optimize emergency transit across road, rail, air. • Champion proactive preventive healthcare. • Deliver professional home care & rehab. • Leverage secure digital health tools. • Execute high-impact public health programs.

Operational Impact: Ensures that every service delivered by Treatmate adheres strictly to evidence-based medicine, rigorous ethical standards, and patient safety protocols.

6. Social Responsibility & Community Commitment

For Treatmate Healthcare, is a core institutional philosophy rather than a formality. We believe geographic coordinates or economic standing should never dictate an individual's right to wellness. Our structured framework collaborates with corporate partners, public entities, and NGOs to address structural health challenges.

- Comprehensive Community Health Screening & Non-Communicable Disease (NCD) Diagnostics
- Rural, Semi-Urban, and Tribal Healthcare Outreach Programs
- Institutional Health Programs (Schools, Colleges, and Workplaces)
- Maternal Health, Anemia Control, and Preventive Women's Care
- Elderly Care, Palliative Support, and Chronic Condition Management
- Disaster Preparedness, Humanitarian Aid, and Emergency Medical Response
